

Natural Wood Beewax

Properties

Flügger Natural Wood Bee wax is based on pure bee wax and non-volatile oils, which make it easy to work with bee wax. Provides classic, beautiful, antique golden glow to wood, preventing it from drying and makes the surface easy to clean and dirt-repellent.

Application

For interior use on all the woodwork, especially wax treatment of the furniture.

Apply with clean and dry cloth. Polish with a dry cloth after 15-20 minutes.

Regular cleaning/maintenance may be performed with Flügger Natural Wood Cleaner.

New treatment with bee wax is recommended 1-2 times a year.
